INVESTOR IN PEOPLE

The Patent Office
Concept House
Cardiff Road
Newport
South Wales

I, the undersigned, being an officer duly authorised in accordance with Section 74(1) and (4) of the Deregulation & Contracting Out Act 1994, to sign and issue certificates on behalf of the Comptroller-General, hereby certify that annexed hereto is a true copy of the documents as originally filed in connection with the patent application identified therein.

In accordance with the Patents (Companies Re-registration) Rules 1982, if a company named in this certificate and any accompanying documents has re-registered under the Companies Act 1980 with the same name as that with which it was registered immediately before re-registration save for the substitution as, or inclusion as, the last part of the name of the words "public limited company" or their equivalents in Welsh, references to the name of the company in this certificate and any accompanying documents shall be treated as references to the name with which it is so re-registered.

In accordance with the rules, the words "public limited company" may be replaced by p.l.c., plc, P.L.C. or PLC.

Re-registration under the Companies Act does not constitute a new legal entity but merely subjects the company to certain additional company law rules.

Signed

Stephen Hordley

Dated 4 October 2004

Request for grant of a patent

(See the notes on the back of this form. You can also get an explanatory leaflet from the Patent Office to help you fill in this form)

20 NOV 2003

The Patent Office

Cardiff Road
Newport
South Wales
NP10 8QQ

1. Your reference

358-129B

2. Patent application number

(The Patent Office will fill in this part)

0327038.6

3. Full name, address and postcode of the or of each applicant (underline all surnames)

08756710001

Patents ADP number (if you know it)

If the applicant is a corporate body, give the country/state of its incorporation

GLOBAL Synergy Solution LTD
1490 WESTON RD
KING CITY
ONTARIO
CANADA L7B 1K4

4. Title of the invention

5. Name of your agent (if you have one)

"Address for service" in the United Kingdom to which all correspondence should be sent (including the postcode)

06562201003

Patents ADP number (if you know it)

ANTHONY ASQUITH + CO
328 LEEDS RD
SCHOLES
LEEDS
LS15 4DD

6. If you are declaring priority from one or more earlier patent applications, give the country and the date of filing of the or of each of these earlier applications and (if you know it) the or each application number

Country

Priority application number
(if you know it)

Date of filing
(day / month / year)

7. If this application is divided or otherwise derived from an earlier UK application, give the number and the filing date of the earlier application

Number of earlier application

Date of filing
(day / month / year)

8. Is a statement of inventorship and of right to grant of a patent required in support of this request? (Answer 'Yes' if:

- a) any applicant named in part 3 is not an inventor, or
 - b) there is an inventor who is not named as an applicant, or
 - c) any named applicant is a corporate body.
- See note (d))

10. If you are also filing any of the following, state how many against each item.

Priority documents

Translations of priority documents

Statement of inventorship and right to grant of a patent (*Patents Form 7/77*)

Request for preliminary examination and search (*Patents Form 9/77*)

Request for substantive examination (*Patents Form 10/77*)

Any other documents
(*please specify*)

11.

I/We request the grant of a patent on the basis of this application.

Signature

Date

12. Name and daytime telephone number of person to contact in the United Kingdom

Warning

After an application for a patent has been filed, the Comptroller of the Patent Office will consider whether publication or communication of the invention should be prohibited or restricted under Section 22 of the Patents Act 1977. You will be informed if it is necessary to prohibit or restrict your invention in this way. Furthermore, if you live in the United Kingdom, Section 23 of the Patents Act 1977 stops you from applying for a patent abroad without first getting written permission from the Patent Office unless an application has been filed at least 6 weeks beforehand in the United Kingdom for a patent for the same invention and either no direction prohibiting publication or communication has been given, or any such direction has been revoked.

Notes

- If you need help to fill in this form or you have any questions, please contact the Patent Office on 08459 500505.*
- Write your answers in capital letters using black ink or you may type them.*
- If there is not enough space for all the relevant details on any part of this form, please continue on a separate sheet of paper and write "see continuation sheet" in the relevant part(s). Any continuation sheet should be attached to this form.*
- If you have answered 'Yes' Patents Form 7/77 will need to be filed.*
- Once you have filled in the form you must remember to sign and date it.*
- For details of the fee and ways to pay please contact the Patent Office.*

Patents Form 1/77

Moisture control for double-pane windows

This is an addition to the patent specification contained in patent application number GB-03/22606.5 filed 26 September 2003.

For the sake of clarity, it should be noted that, in the above specification, the one-way valve into the window glass to vent the window to the outside environment can be done from either side of the window. In the case where the valve is inserted from the inside of the building, it will of course be necessary to drill an access hole through the inner pane of glass to provide access to the outer pane. There are also situations involving triple pane glass where the access hole will have to be drilled through the first two panes. Once the process of cleaning and draining the window has been completed and the one-way valve(s) applied to the outer pane, a seal is applied to the inner pane to reseal the window cavity.

It should also be noted that the one-way valves outlined in the patent application can be oriented to vent from the window cavity to the exterior of the building or from the exterior of the building into the window cavity. In practice, both orientations can be found applied to the same window and a single valve assembly may contain both orientations within the same housing.

It should also be noted that in place of a mesh or screen to keep insects and large particles from entering the window cavity through the one-way valve, it is also acceptable to use another method.
